

Are you living in cold & draughty home?

...and do you consider yourself to be in energy poverty?

Transition Town Reading is a **community group who want to help you with the draught proofing of your home.** The cost of materials has been met through a grant from the Council, providing that you meet certain conditions and we visit you before the end of March 2017. The work will be done by experienced volunteers and will take up to a couple of hours.

Its easy to carry out draught proofing! If you would like to help with this project you are very welcome to join us. You will learn how to draught proof and can go on to help your friends and neighbours do their homes. Alternatively **if you know of people who need help please let them know about us!**

Contact

www.DraughtBusters.net and use the contact form or call Graciela at Reading Council on 0118 937 2100.

September 2016 to
March 2017
